▶ Balloon Decorating

Balloon decorating can enhance any banquet hall making the event extra special. Designs can be simple as a string of pearls, most popular balloon arch, to a more elaborate balloon heart and majestic balloon canopy that encompass and covers the dance floor. This will make for a romantic atmosphere for you and your guest to enjoy.

Wedding, Proms, and Trade Shows use balloon arches, columns, and balloon centerpieces to make the event festive and memorable.

Balloon columns can be designed to be delicate, sophisticated, ornamental to large vibrant columns that make for a dramatic bold impression. Shape, size, and color can be designed to give ambience to a room's decor.

Balloon sculptures can be customizing for your event. Small balloon sculptures can be use as balloon centerpieces or a ornamental decoration, which enhance the events overall appearance.

Large balloons sculptures are used to fill or enhance a room's appearance,. Four foot sculptures make for dramatic statement along with improving your theme of the party. They can be customized for you event, but will last long after everyone has left.

Make your banquet hall as special as your event — Decorate it with balloons!
